

20 June 2014

## Technical Visit to CLP Energy Efficiency Exhibition Centre

The Energy Efficiency Exhibition Centre is the exhibition areas displaying the latest energy efficient technologies for the commercial and industrial sectors. Members can learn about the actual applications of these technologies through advanced audio-visual equipment, exhibits and demonstrations of the electrical appliances and system displays so as to promote green practice for energy-saving and becoming low carbon buildings. Also, there are speakers arranged by CLP to share about CLP's green support for residential and commercial customers, the requirements of Building Energy Codes on lighting installations, solutions for improvement of lighting quality and efficiency, and the latest technologies on energy management for buildings.

You are cordially invited to join the technical visit to the Energy Efficiency Exhibition Centre organized by Chartered Institute of Housing Asian Pacific Branch and supported by CLP Power Hong Kong Ltd with details as follows:

|                 |                                                                           |
|-----------------|---------------------------------------------------------------------------|
| Date            | 19 July 2014 (Saturday)                                                   |
