2nd International Conference on Utility Management & Safety (ICUMAS | 7-8 March 2011 | Hong Kong)

香港如心海景酒店暨會議中心

L'hotel Nina et Convention Centre (Hong Kong)

Call for Papers 全球論文徵集中

Background and Objectives:

The First International Conference on Utility Management and Safety (第一屆國際管綫管理及安全會議) was held in 2009 and was a great success. This second conference aims to build on that success by providing an excellent platform for utility specialists to share their experience with delegates from around the world.

Delegates will have an unique opportunity to hear about the latest theories, practices and developments in utility planning, production, management and safety from the four corners of the globe.

Conference Topics:

Theme: Towards Sustainable Urban Development 城市的可持續發展

The major topics for the conference program are as follows:

1.) Field Techniques & Materials:

Utility Surveys, Pipe Condition Surveys, Pipe Rehabilitation Methods and Materials, Water Leakage Detection, etc.

2.) Asset & Data Management:

Project Management, Training, Personnel, System, Program, Construction Design, GIS, Data Sharing, Risk Management Strategy etc.

3.) Safety & Health:

Safety Management, Construction Management, Damage, Pollution, Carbon Reduction

These topics are not exhaustive and papers which fall within the general theme of the conference will be considered for presentation. Conference proceedings will be published and made available at the conference. The full paper with a maximum of 10 A4 pages should be sent to the conference secretariat no later than 31 December 2010 for review by the Technical Review Board. Papers will be accepted on the basis that the named author will attend the conference in person to make the presentation.
