

Visit to Hong Kong Science Park on ISO 50001 Energy Management System Certification

HKCTC has set up a panel for each of the six selected trades to focus efforts on the development and promotion of testing and certification services in these trades, with the environmental protection trade being one of them.

The International Organization for Standardization (ISO) has published the international standard ISO 50001 for Energy Management System (EnMS) to support organisations to improve their energy performance through a systematic approach. Certification bodies can provide certification services based on this standard for these organisations.

Benefits of implementing an ISO 50001-based EnMS are manifold. It can help your organisation to –

- ascertain your current energy use status in order to devise corresponding measures to promote efficient energy use;
- formulate a clear framework to promote continual improvement in energy management;
- raise staff awareness on energy efficiency and conservation; and
- increase financial savings as a result of energy saving and cost reduction.

To promote ISO 50001 EnMS certification, the Hong Kong Council for Testing and certification (HKCTC) Secretariat has arranged a visit to the Hong Kong Science Park to understand more about the Park's experience in ISO 50001 EnMS certification. Details are as follows -

Date: 10th September 2014 (Wednesday)
Time: 9:30 a.m. – 11:30 a.m.
Quota: 30 (including Members of HKCTC Panel on Promoting Testing and Certification Services in Environmental Protection Trade)

Programme *:

Time	Item
9:30 a.m.	Assembly at Hong Kong Science Park (<i>Note: Transport to and from Hong Kong Science Park will not be arranged by HKCTC Secretariat</i>)
9:30 a.m. – 9:45 a.m.	Greeting & Corporate Video Show Overview of Hong Kong Science Park
9:45 a.m. – 10:30 a.m.	Presentation and Discussion on ISO 50001 of Hong Kong Science Park
10:30 a.m. – 11:30 a.m.	<u>Tour of Hong Kong Science Park</u> - Green 18 - Building(s) in Phase 3
11:30 a.m.	End of Visit

* The organiser reserves the right to alter the topic/content of the programme without prior notice.

Members from the property management sector are welcome to join the visit. If you are interested in joining the visit, please reply by completing the attached enrolment form and send to michael.li@itc.gov.hk by **3 September 2014 (Wed)**. Admission is free and on a first-come, first-served basis.

For any enquiries, please contact Mr Michael Li from HKCTC Secretariat at 2294 2918 or michael.li@itc.gov.hk.

About HKCTC

Testing and certification is an industry with good development potentials and a sector where Hong Kong enjoys clear advantages. To spearhead the development of the industry, the Government established HKCTC in September 2009 to advise on the overall strategy to support the development of the industry. The Innovation and Technology Commission provides secretariat support to HKCTC.
