

Webinar on Long Term Strategies for Enhancing Safety and Management of Aged Lifts

Co-organized by
Electrical and Mechanical Services Department (EMSD) and
Building Services Operation and Maintenance Executives Society (BSOMES)

Date, Time & Venue

Date : 8 October 2021
Time : 7:00pm to 9:00pm (Registration to be opened at 6:45pm)
Venue : Webinar via Zoom

Programme Highlights

Lifts are one of the safest transport as they are designed in strict compliance with the comprehensive safety and engineering standards. Following to the development of technology and social needs, these standards will continue upgrading for higher protection to people and property. In Hong Kong, there are about 70 000 lifts and more than half of the existing lifts aged over 20 years old. Long term strategies and possible actions should be taken to enhance the safety and management of aged lifts.

Key Topics	Name of Speaker*
● Opening Speech	Mr. Vincent CHOW, Assistant Director of EMSD
● Long term strategies and possible actions for enhancing safety and management of the aged lifts.	Mr. Chi Wai CHAN, Acting Senior Engineer of EMSD
