**Talk on Quality Water Supply Scheme for Buildings
– Fresh Water (Management System)
10 April 2018 (Tuesday)**

Chartered Institute of Housing Asian Pacific Branch (CIHAPB) and Urban Research Group, Department of Public Policy, City University of Hong Kong have jointly organized a talk as follows:

Date & Time	10 April 2018 (Tuesday); 7:15 pm – 8:30 pm
Venue	Lecture Theatre 13 (LT-13), Floor 4, Yeung Kin Man Academic Building, City University of Hong Kong, Tat Chee Avenue, Kowloon Tong, Kowloon.
Contents	Tap water quality can be affected by various factors inherent to a building's internal plumbing systems, despite the fact that the water supplied by the WSD is safe for consumption, such as a lack of proper cleaning of the drinking water tank, a lack of proper maintenance of the internal plumbing systems causing contamination, or the use of non-compliant materials in the internal plumbing systems. Noting this, Water Supplies Department (WSD) invited expert consultants to assist in developing a set of risk-management based guidelines and templates for the Water Safety Plan for Buildings (WSPB) in accordance with the recommendations of the World Health Organization (WHO). The guidelines and templates encompass the identification of potential contamination risks in internal plumbing systems and the formulation of corresponding control measures to safeguard the quality of drinking water. To promote building owners' and property management agents' adoption of WSPB, the WSD has combined WSPB with the Q-Plus to form a new scheme (the Scheme) starting from 6 November 2017 to further safeguard the quality of drinking water in buildings. The details of the Scheme will be presented in the talk.
Speaker	Mr Lee Hong Nin Kevin, Engineer from Water Supplies Department
Other Attendees in Q&A Session	Mr Ip Chit Ki, Senior Engineer from Water Supplies Department Mr Yu Man Tat, Senior Chemist from Water Supplies Department
Programme	7:00 pm Registration 7:15 pm Start of the Seminar 8:00 pm Q&A Session 8:30 pm End of the Seminar
