Learn · Connect · Advance

Facility managers are in unique position to improve the sustainability operational performance of their portfolio. It is not only showing our commitment to addressing global warming but also enhancing the corporate image and improving the working environments.

We have invited representative from Electrical and Mechanical Services Department to introduce to us Smart City in Hong Kong. Also hear the industrial leaders say on Power Up the Green and Smart City, sustainable CAFM Platform, Discerning Sustainable Technology, IoT monitoring and performance driven control of indoor air quality. There will also be updates on IFMA Awards and message from IFMA Environmental Stewardship, Utilities and Sustainability Strategic Advisory Group.

Space is limited. Book your seat online now to get involved, get informed and get inspired!
