Technical Seminar for “New Quality Water Supply Scheme for Buildings by WSD and Maintenance of Water Pipes & System in Building” (大廈優質供水認可計劃及樓宇水務喉管與系統保養)

- Date** : 29 August 2018 (Wednesday)
Venue : ST111, Hong Kong Polytechnic University, Hung Hom
Time : 7:00-9:00 p.m. Registration will start at 18:30

Programme Highlights

Water is a critical source of life. Following to the increasing demand on the water quality from public, all related practitioners, including plumbing professionals, engineers, facility managers, etc, have the bounden duty to ensure the water supply system at an international standard and high quality. Tap water quality can be affected by various factors inherent to a building's internal plumbing systems, such as lack of proper cleaning of the drinking water tank, lack of proper maintenance of the internal plumbing systems causing contamination, or the use of non-compliant materials in the internal plumbing systems. In addition, proper pipe repair work would extend its service life as an effective preventive maintenance strategy and cost reduction measures.

The purpose of this seminar is to share the new requirements on Quality Water Supply Scheme organized by Water Supplies Department (WSD) as well as the good practices on proper maintenance and repair on potable and non-potable water supply system in building.

Honourable Speaker

Session 1: Introduction of Quality Water Supply Scheme

- Mr Kevin H N LEE, Engineer, Water Supplies Department

Session 2: Highlights of Maintenance on Inside Water Pipes of Building

- Mr Daniel C H YEUNG, Engineer, Water Supplies Department

Session 3: Effective Rehabilitation and Lining for Deteriorated Service Pipe, Sewage Pipe and Chilled Water Pipe

- Mr. Ric W L NG, Senior Engineer, Freyssinet Hong Kong Ltd.
