SPEAKER'S PROFILE

Mr. Paul Lau

Managing Director Jetline Construction

Paul Lau joined Jetline Construction in 2005. He has been the Managing Director since 2015. Mr. Lau graduated from the University of Michigan in 2001 with a Bachelor of Science in Civil and Environmental Engineering. In the following year, he earned a Master of Engineering degree in Construction Engineering and Management. Mr. Lau is the Authorised Signatory (A.S.) of Registered General Building Contractor (RGBC) under the Building Ordinance. He has over 18 years of experience in roadwork and building construction in the United States and Hong Kong. He is specialized in design and build contracting. His expertise includes structural glazing works, structural alteration and renovation of shopping malls in Hong Kong.

Under the guidance of Mr. Lau, Jetline has completed numerous Asset Enhancement Projects for renowned clientele such as Link REIT, Gaw Capital, Wharf, Miramar Group.

Mr. Lau is currently the President of Rotary Club of the Peak and participates actively on different service projects for various charity NGOs.

TOPICS OF DISCUSSION:

- Latest construction technology applicable to AE projects: plastering materials, façade materials, fire-rated product, machinery.
- Nuisance control and mitigation measures: noise control, air quality control, decorative hoarding etc.
- Challenges contractors might face in AE Projects: site constraint, material delivery, debris discharge, demolition of existing structure, inclement weather.
- Overview of related statutory regulation and ordinance by different government bodies: BD/ICU, EPD, CWRA, LD, MTRC, utility companies, Minor Works.
