HK\$ 600 (BEAM Pro / Members of BSL
& Supporting Organisations)
HK\$ 900 (Standard)

Language

Cantonese supplemented with English

Venue

Meeting Room, 38/F,
Holiday Inn Express Hong Kong SoHo,
83 Jervois Street Sheung Wan, HK

Holiday Inn Express Hong Kong SoHo is the first commercial high rise building in the world to achieve double platinum Green certificates: BEAM Plus – New Buildings (the first BEAM Plus Platinum rating building) and LEED (Leadership in Energy & Environment Design) new construction by USGBC (US Green Building Council). To achieve this, the design and construction of the building needed to be "Green" concerned and oriented to sustainability, water efficiency and energy saving.

The technical talk will cover the introduction of special features on various aspects of green design for high rise buildings, e.g. architectural, structural, construction, E&M, power management, environmental control, operation and maintenance, etc. It will also have an experience sharing on the application process of BEAM Plus and LEED to achieve Platinum Awards. After the talk, participants will have a site walk to visit the innovative and special features in the building.

Innovative Green Design for Facility Management and Special Features of SoHo

Ir Antonio CHAN – Executive Director of REC Engineering Company Limited

Ir Antonio Chan is currently the Executive Director of REC Engineering Group and is responsible for operations in the Hong Kong region comprising REC Engineering Co. Ltd., REC Engineering Contracting Co. Ltd., REC M&E Engineering (Shanghai) Co. Ltd., Tin Sing Chemical Engineers Ltd., and REC Green Technologies Co. Ltd.

Antonio has been in the industry for more than 30 years and has been working in various roles including consultant, contractor and developer. He has worked in Hong Kong, Mainland China and the United Kingdom. In Holiday Inn Express SoHo Hotel, Antonio leads REC who were responsible for the MEP Design and Build and also RGT, offering green technology solutions to facilitate the energy efficient and sustainable development of the project.

Experience Sharing on Achieving Credits for BEAM Plus and LEED NC

Ir Eagle MO – MSc, BEng (Hons), FSOE, MHKIE, MASHRAE, RPE, BEEF-QSP, BEAM Pro, REA, LEED AP

Ir Eagle Mo has more than 15 years as a consultant in Building Services, Green Buildings and Energy, she has various experience of buildings including energy review, life cycle cost calculations, energy and carbon audits, energy saving system design, BEAM, LEED, and Green Mark. She has completed more than 60 projects within the last 15 years. Eagle graduated from the Hong Kong Polytechnic University with a Bachelor (Hons) Degree in Building Services Engineering, and then obtained her Master's degree from Hong Kong University. Currently, she is a visiting lecturer in BSE Department of the Polytechnic University. She was the President of ASHRAE Hong Kong Chapter in the year 2010-2011.
