

Ms Heidi Ho
Principle Consultant
GS1 Hong Kong

USING IOT SOLUTIONS TO EFFICIENTLY MANAGE PROPERTY

Webinar (14 July 2020, Tuesday, 19:00-21:00)

ISCM is proudly to invite Ms Heidi Ho, Principle Consultant of GS1 Hong Kong, to present Using IoT solutions to efficiently manage property. Gartner predicts that there will be 20.4 billion connected devices in 2020, significant growth when compared to the 6.4 billion connected devices the global research firm reported in 2016. The potential for the IoT to change the way the world works is limitless, and connected devices are becoming an asset to helping organizations make smarter, more efficient business decisions – like how to create and maintain an efficient workplace.

SPEAKER'S PROFILE

Heidi has been working in the supply chain and logistics field since 90s and is now supporting GS1 to lead the Smart Professional Services team since 2006. Services include Supply Chain Professional Services, Smart Operations, Smart Property, Smart Traceability as well as Training and Development. Apart from conducting business process reengineering for companies, Heidi's team would also responsible for technology sourcing, technology evaluation and technology implementation from local to overseas. The ultimate objective is to assist company to achieve business optimization, comply global standards and maximize return-on-investment on technology implementation. Over the years, Heidi has supported diverse companies include government bureaus, public utilities and companies within and beyond Hong Kong with her team to achieve above-stated objective. Besides, Heidi is also appointed as GS1 Global Trainer to support over 114 GS1's member offices and she is also helping the University of Hong Kong and Polytechnic University to conduct lecturing on General Management and Supply Chain.
