Course Objectives

In Hong Kong, the need for **lift and escalator maintenance** has increased tremendously throughout the years. Recent multiple cases of lift/escalator incidents raises the awareness of the public. Voices were heard to **upgrade the system performance and safety**. Stringent regulations are imposed for maintenance and inspection of lifts.

To uphold the safety of the public, it is necessary to create the awareness of various stakeholders in the real estate industry so as to **protect the safety of general public**.

Supporting Organisations:
